Example

If you are adding Cryptolyte control to a BECSys5 with v2.40 firmware, you will need:

Qty 1, PN	2210623-M000149	BECSys5 LUI Upgrade Kit with M000149 program IC
Qty 1, PN	M000151	Cryptolyte Add-On, to enable Cryptolyte in controller
Qty 1, PN	2100490	Chlorine dioxide sensor and flow cell

NOTE: BECSys5's Serial Number <= 2973 have a DIP program IC, which is no longer supported.
The last of these BECSys5's was shipped in March 2012.
